

MimioStudio classroom software

Powerful collaboration and classroom assessment software that allows you to create your first interactive lesson in under five minutes.

MimioStudio™ classroom software powers all the MimioClassroom™ products, so using other tools—from the document camera to the pen tablet—is quick and easy. It also powers almost any interactive display, so you can bring dynamic learning to your classroom no matter what display you have.

MimioStudio software allows educators to create interactive whiteboard lessons as well as collaborative and team activities, and perform real-time formative assessment. Take learning even further with our MimioMobile™ app, which allows group learning and collaboration on almost any device.

- Teachers can create assessments with short-answer, short-essay, and numeric student responses, helping to gauge what students are comprehending.
- Includes MimioStudio Gradebook, which automatically records multiple choice, numeric, and short-answer responses to assessment questions, and eliminates the need for teachers to hand-grade tests.
- Imports files from SMART, Promethean, PowerPoint, Common File Format (IWB), and video, so teachers can use the content they already have.
- Designed to be used with interactive whiteboards and displays from other manufacturers,* with support for pens, single touch, multi-touch, and gestures.
- Connect up to three mobile devices using the MimioMobile app, free with any MimioStudio license. Connect every mobile device in the classroom with the purchase of an annual MimioMobile license.
- ActivityWizard offers a built-in knowledge engine to help teachers generate educationally sound and engaging teaching activities in minutes.

“The MimioStudio Collaborate feature makes small-group work even more meaningful when students can share their work in the front of the classroom.”

Melissa Haney, First Grade Teacher

Perform assessment and collaborative activities on almost any device with our MimioMobile app.

With the MimioMobile app, students can work on MimioStudio activities on their devices, and teachers can share any combination of the students' work on the front-of-the-class display. Students get greater collaborative and cooperative learning, and teachers get a more in-depth understanding of their students' comprehension. The MimioMobile app is compatible with almost any device, from Apple and Android devices to Chromebooks.

Features

Lesson Creation

- MimioStudio Notebook, a multi-page workspace
- Easy-to-use toolbar with powerful interactive tools
- Object locking
- Adjustable transparency
- Object cloning
- Templates and backgrounds
